Calm the burn

Soothe sunburn or peeling skin. Say adios to dehydration lines & tight skin on the chest & face. Your skin will be left feeling softened and repaired.

This 1 hour cooling experience starts with quieting your thoughts by inhalations of lavender, eucalyptus & cypress followed by a cooling buffing cleanse, using oats & coconut. Then switch off & enjoy a gentle, nourishing pressure point face massage.

Finishing with a cooling hydrating masque, scalp massage and lastly a layer of Stabilizing repair cream.
