Get Your Steps In

Long dog walks, a 10k run or just pounding the pavements to school or work and back. It would be blissful for your feet to feel refreshed after your exercise as well as you!

Book in 25 minutes for some much deserved holistic foot health. Your treatment starts clothed, laying on a warm bed to ease the back of your body, close your eyes to receive a heated eye mask while your feet get all the attention with scented, refreshing hot towels followed by deep, soothing, relaxing massage.
